

OBJ's feedback on Scientroinc's one day LC/UPLC and Data

“Training at Scientronic Instrument Services

Callum was a brilliant trainer, who made the class interactive and provided us (mainly Helen) with lots of chocolate.

The class was set up nicely and our trainer was knowledgeable, especially when it came to Water's instrumentation.

A course book was provided to us with clear aims. We were taught basic HPLC theory, differences in columns/detectors, and method development.

We were also shown how to use the empower software effectively, and a had a brief introduction to HPLC maintenance.

OBJ Ltd had a fantastic time and learnt many new things at Scientronic”
